### **Sharing personal learning**

Share our journey with others and learn from others.

### **Reaching India with the Gospel**

There is an urgency for the Gospel to be shared with our nation of India. We are responsible for our country and our people. We are the biggest nation in the world in population. Our challenge is big before us. If we do not function as salt and light then we have failed our nation. The call for Integrity for us is an enormous challenge.

We must impact each of our circles of influence for the Gospel. We are either going to be stepping stones for the Gospel or stumbling blocks. We must accept the challenge and commit to being people of Integrity to reach our nation of India with the Gospel. The cost to be people of integrity in our nation is very high. We may even have to pay with our lives. To live in our nation as people of Integrity is a high task.

FOR GOD TO HEAL INDIA, HEALING BEGINS WITH ME.
